

Beat The Silent Killer

In Ontario,
approximately 65% of
all carbon monoxide
deaths and injuries
occur in homes.

Working Together in our Community

Carbon Monoxide (CO)

You can't smell it, see it, or taste it.
But it can harm or kill you.

Sources of Carbon Monoxide:

Many Ontario households have, on average, 4-6 fuel-burning appliances that produce carbon monoxide.

Fireplace

Dryer

Stove

Furnace

Water Heater

BBQ

Portable Generator

Reduce CO Risks:

Have your fuel-burning appliances inspected
and maintained by qualified professionals.

Install and regularly test certified
carbon monoxide alarms.
