

Working Together in our Community

TO-DO

- ☐ Get my home heating system inspected by a certified technician.
- ☐ Install carbon monoxide (CO) alarms near each sleeping area and on each floor without a sleeping area.
- ☐ Book inspections with a TSSA-registered fuels contractor for all fuel-fired appliances (e.g. furnaces, fireplaces, water heaters, etc.).
- ☐ Test CO and smoke alarms regularly and replace as required.

[illegible]The logo features the word "THINKSAFE" in white, bold, uppercase letters, and "COSafety.ca" in black, bold, uppercase letters below it. The background consists of diagonal stripes in various shades of red and orange.
